

Guilfoyle

Course - Anatomy and Physiology

Essential Question: How is a "system" essential in order for a more complex organism to function?

Steps	Tuesday 9/2
Focus Catalyst	Catalyst - Who Am I (Functional Units)
Goal/Objective	Differentiate anatomy and physiology with an example and use proper anatomical location terminology.
Common Core	W1 - Write arguments to support claims with clear reasons and relevant evidence
	W4 - Produce clear and coherent writing
	W7 - Research
	R1 - Cite textual evidence
21st Century Skill	Team work during independent practice
STEM	Medical terminology
Technology	Promethean Board
SWBAT - APICA	Compare & contrast the terms anatomy & physiology with an example
	Describe locations of anatomical structures using proper terminology
	Describe the major organ systems
Agenda	Catalyst - Who Am I (Functional Units)
	Flipchart - R U DR. I CLEMSIN Review
	Activity - Cadaver
	Review Anatomical Locations
Independent Work	Activity - Scavenger Hunt
Check For Understanding	Individual consultations during the activities
Closure	TOTD - Three truths and a lie revealed
Homework	Purchase required materials for class

Self-Reflection

Course - Anatomy and Physiology

Essential Question: How is a "system" essential in order for a more complex organism to function?

Steps	Wednesday 8/29
Focus Catalyst	Catalyst - Landmarks on the game Operation
Common Core	R1 and W1
SWBAT - APICA	Compare & contrast the terms anatomy & physiology with an example
	Describe locations of anatomical structures using proper terminology
	Describe the major organ systems
Agenda	Catalyst - Landmarks on the game Operation
	Flipchart - Introduce the Human cadaver
	Activity - The human cadaver
Independent Work	Activity - The human cadaver
Check For Understanding	Individual consultations during the activities
Closure	TOTD - Identify the belly button

Course - Anatomy and Physiology

Essential Question: How is a "system" essential in order for a more complex organism to function?

Steps	Thursday 8/30
Focus Catalyst	Catalyst - Locate Me
Common Core	R1 and W1
SWBAT - APICA	Compare & contrast the terms anatomy & physiology with an example
	Describe locations of anatomical structures using proper terminology
	Describe the major organ systems
Agenda	Catalyst - Locate Me
	Flipchart - Introduce the Human cadaver
	Activity - The human cadaver
Independent Work	Activity - The human cadaver
Check For Understanding	Individual consultations during the activities
Closure	TOTD - Identify the belly button

Course - Anatomy and Physiology

Essential Question: How is a "system" essential in order for a more complex organism to function?

Steps	Friday 8/31
Focus Catalyst	Catalyst - Brainstorm RU DR Clemsin
Common Core	R1 and W1
SWBAT - APICA	Compare & contrast the terms anatomy & physiology with an example
	Describe locations of anatomical structures using proper terminology
	Describe the major organ systems
Agenda	Catalyst - Brainstorm RU DR Clemsin
	Flipchart - The Systems
	Activity - Slice and Dice an Apple to Review Body Planes
	Activity - Concept Map/Match the systems; function(s); functional group and structure(s)
	Activity - The human cadaver
Independent Work	Activity - The human cadaver
Check For Understanding	Individual consultations during the activities
Closure	TOTD - Identify the belly button
